**The blood pressure monitor is to be worn for a period of 24 hours.**

### Pre-test preparation

The device **must not** get wet. We advise that you shower prior to having the device fitted and avoid using body lotions, oils or powders.

For your own comfort, we recommend you wear a loose fitting shirt.

### Privately billed fee

At present, the service does not attract a Medicare rebate. Payment will be required at the time the monitor is fitted. The fee is \$125\*, however, pensioners and health care card holders will be charged \$85\*. There is no charge to patients who hold a Department of Veteran Affairs card.

**If you require further information, please contact the collection centre where you have booked an appointment.**
